

Do you feel stuck in life? Do you feel like you never seem to reach God's purposes in your life? Do you feel aimless and unsatisfied with life? The goal of the Wheel of Life Assessment is to help individuals begin considering where God may want to renew dreams.

Utilizing this Wheel of Life Assessment a Dream Development Plan will begin to help you prioritize life, make specific year goals, identify obstacles and tools and create practical action steps.

The purpose of the Wheel of Life assessment is to provide you with an opportunity to help determine those items in your life that are important to you and consider whether there is room for improvement in preparation for mentoring and coaching. This wheel contains eight categories but these categories may be adjusted or increased as desired. The final selection of categories are up to each individual participant to reflect their own lives.

The numbers provide a review of satisfaction in each category, the lower the number the lower the level of satisfaction.

This exercise measures your level of satisfaction in these areas on the day the assessment is taken. It is not a picture of how it has been in the past nor of what you desire for it to be in the future. This tool is meant to take a snapshot of your satisfaction levels in that specific moment.
